

LPF | LEVELING THE PLAYING FIELD

ANNUAL REPORT 2024

A Note from our Executive Director

As we look back at 2024, I want to take a moment to reflect on the incredible progress we've made together in our mission to remove the cost of equipment as a barrier to youth sports participation. Thanks to your support, this year marked a period of unprecedented growth and impact for LPF.

The Project Play 2024 State of Play Report underscored the ongoing need for increased access to sports, especially for girls and underserved communities. While we watched the "Caitlin Clark Effect" increase young girls' interest in basketball across the country, we continued to grow our sports bra initiative, ensuring young female athletes have the gear they need to compete with confidence.

We also responded to a need for our program in Southeast Michigan, officially opening our sixth warehouse in Detroit thanks to support from the Ralph C. Wilson, Jr. Foundation.

Our growth in 2024 was remarkable:

- **We saw a 10% increase in programs impacted and nearly doubled the number of new programs served compared to 2023, with 385 first-time visitors to our warehouses.**
- **For the first time, this year we surpassed the \$5 million mark in collected equipment!**
- **With the help of 2,456 volunteers, we were able to inventory and sort gear quickly for distribution.**
- **Our collection efforts directly led to a 23% increase in distribution, allowing us to provide \$3.69 million worth of sports equipment to young athletes.**
- **Best of all, an overwhelming 98% of surveyed beneficiaries reported that our support allowed them to reallocate funds and increase participation rates.**

This growth was driven directly by our staff who all dedicate a tremendous amount of time and energy in our warehouses every day.

It is also driven by our incredible communities who keep our warehouses organized and full of great equipment.

Looking ahead to 2025, we are eager to build on this momentum.

We plan to continue our national expansion by launching in new markets, growing our distribution footprint, and increasing our capacity to deepen our impact. With an expanding team and more strategic partnerships, we are committed to ensuring that every child, regardless of their financial situation, has the opportunity to experience the lifelong benefits of sports.

Thank you for your unwavering support in 2024. Together, we are breaking down barriers and empowering the next generation of athletes.

Max Levitt
Founder & Executive Director

A photograph of children playing soccer on a grassy field. In the foreground, a boy in a grey t-shirt and patterned shorts is hugging another boy in a green t-shirt and grey shorts. Both are wearing bright yellow safety vests. The boy in the green shirt is laughing joyfully. In the background, other children in similar vests are visible, along with a blue and yellow playground structure. The overall scene is one of active play and camaraderie.

CAME
TO
PLAY.**

Who We Are

MISSION:

Leveling the Playing Field redistributes equipment to expand access and equity within youth sports and recreation programs in under-resourced communities.

VISION:

A world with no sidelines.

VALUES:

COMMUNITY

As we work to increase access in youth sports, we aim to help build community in the process across schools, local nonprofits, professional sports teams, rec leagues, government entities, and more.

EQUITY

We center equity every day in our work as we strive to make youth sports more accessible and equitable for all kids.

FUN

Sports have many health and social benefits, but kids play them because they're fun! Through events, volunteer opportunities, and more, LPF aims to implement fun into our work whenever possible.

TEAMWORK

LPF does not carry out our work alone, but rather alongside many local and national partners who all help us do more for kids.

SERVICE

The LPF team is here to serve our communities to the best of our ability, eliminating barriers keeping kids off the sidelines.

What We Offer

LPF applies the food bank model to sports equipment, gathering new and used sporting equipment and stocking a well-organized warehouse with head-to-toe needs for local coaches to “shop” for their teams at no cost.

Our free equipment allows programs to pass on savings to families who need it most: lowering registration fees, expanding scholarship programs and otherwise enhancing or expanding their athletic and programmatic offerings.

Collection

We primarily collect our sports equipment through community drives and strategically placed metal donation bins that bring in equipment from local families. We also accept donations of discontinued or overstock goods from sporting goods companies. Staff run collection drives at youth sports leagues, tournaments, school events, and neighborhood recycling days to fill our van with donated sports gear for our warehouses.

Volunteer Engagement

We rely heavily on volunteers to sort and pack equipment in our warehouses. In addition to warehouse volunteering, individuals and groups often run collection drives within their community.

Distribution Program

Schools and community-based organizations or programs apply for an equipment grant online. Then, we schedule either a site visit or interview at our warehouse. Approved programs are invited to shop the warehouse as often as they want without reapplying! Some programs come once a year and others come on a monthly basis.

Growing Our Distribution Methods

LPF continues to grow our impact, with 2024 being our biggest year of distribution yet. Our two new markets of Columbus and Buffalo were able to officially launch their distribution efforts in the fall of 2024, helping the organization provide over \$3.6M worth of sports equipment to kids in need across all of our markets!

Not only has LPF grown the amount of gear and number of programs served year over year, but additionally as an organization we have listened to the needs of our community and developed ways of giving that best suit our beneficiaries.

FOOTBALL DAY

In August LPF hosted its annual Football Day, an exclusive distribution event for local high school football programs, in Greater Washington, Baltimore, and Philadelphia.

Thank you to our sponsors Dunkin', the Philadelphia Eagles, and the NFLPA for the support!

28 SCHOOLS IMPACTED ACROSS DC, BALTIMORE AND PHILLY

\$58K+ VALUE OF FOOTBALL GEAR DISTRIBUTED

POP-UP CLEAT DISTRIBUTIONS

With funding support from MSYSA, LPF is able to pack up our van full of soccer cleats and socks and bring gear to local soccer clinics around the Greater Washington and Baltimore areas. Our staff works in tandem with MSYSA program staff onsite to help each child find the cleats that fit them best so they are confident on the field.

In 2024, LPF Philadelphia also hosted its first-ever pop-up cleat distribution with Chester Upland Youth Soccer. We hope to continue replicating this model in other markets as we know soccer cleats are an expensive equipment barrier keeping many kids on the sidelines.

COMMUNITY SCHOOL COORDINATOR DAY

LPF also hosted its third annual Community School Coordinator (CSC) day in winter 2024. As the social workers embedded in public schools, CSCs are regularly tasked with finding basic resources for their students. In addition to sports equipment, LPF was able to offer apparel, backpacks, sports bras, water bottles, and other general supplies for CSCs to help their students start the school year right.

IMPACT STORY

GEARUP4KIDZ: INCREASING ACCESS TO YOUTH HOCKEY IN JOHNSTOWN, PA

In the fall of 2023, GearUp4Kidz, a hockey program born out of a community need, took shape in Johnstown, Pennsylvania. Its mission: to provide underserved kids with the opportunity to experience the sport of hockey—an activity often limited by the high costs of equipment and ice time. The program’s founders recognized the growing need for affordable access to hockey for children, particularly in a region where the sport is beloved but out of reach for many families.

IDENTIFYING A COMMUNITY NEED

Through their participation in the John B. Gunter Leadership Initiative, Kathy West, Matt Bender, Adam Rogers, and Wes Strawn worked together to create a project around community volunteerism.

Kathy’s love for hockey began later in life, when her daughter took up the sport. After amassing a collection of hockey gear, her daughter jokingly suggested Kathy could start her own journey in the sport. As Kathy’s daughter prepared for college, the idea of repurposing unused equipment sparked an idea.

It quickly became clear that there was a gap in the local community around youth hockey access. The team spoke with local hockey coach Ben Webb (now the Jr. Hawks coach with GearUp4Kidz) and learned that although some programs offered equipment and coaching, they often catered to younger children. For those ages 10-15 — an age group typically overlooked — there was little opportunity to start playing hockey and progress toward middle and high school teams.

Additionally, the financial barrier to entering the sport of hockey is significant. Gear alone can cost upwards of \$1,000, and many teams require additional fees for ice time, coaching, and travel. Travel hockey teams can even exceed \$2,000 in expenses. As the team began to explore how to make hockey more accessible, they faced the challenge of raising thousands of dollars to cover these costs.

PARTNERSHIPS: A KEY TO SUCCESS

Kathy, Matt, Adam, and Wes designed GearUp4Kidz as a graduation project through their leadership program, combining their professional networks and skills to build a program that addresses both the need for equipment and opportunities to play. The turning point came when Kathy connected with Leveling the Playing Field (LPF). “The first time we walked into the warehouse there was like a light from above,” said Kathy. “We didn’t know what to expect that first time.” added Matt, GearUp4Kidz co-founder. “We were

fortunate enough to go through all the gear. We have petite girls and bigger guys. Being able to sort through the variety of sizes and types of gear was amazing.” Without the access to affordable equipment through LPF, Kathy shares, “I don’t know how we would do this program at all.” The donated gear allowed the team to reallocate funds towards coaching and additional ice time, ultimately providing a richer experience for the kids.

Since GearUp4Kidz first applied to receive gear in 2023, LPF has provided the program with over **\$16.5K worth of hockey gear**.

The local junior hockey team, Johnstown Tomahawks, have also been instrumental partners to GearUp4Kidz. Between helping with registration, providing junior hockey players to volunteer, and more, the Tomahawks have helped the program deepen its impact for local kids.

A GROWING PROGRAM WITH LIFELONG BENEFITS

GearUp4Kidz now provides free hockey equipment and a comprehensive 8-week program called “Jr. Hawks” to children in Cambria County, one of the poorest regions in Pennsylvania. The focus of the program is not to create professional athletes but to allow kids to experience hockey, to better appreciate the sport, and to develop life skills like discipline and teamwork.

Kathy notes that this experience is transformative, especially for those who have never been on the ice before. “You can see a difference in just 8 weeks,” she shares. “They start to look like hockey players by the end of it.” One of the standout moments for the children was a field trip to a local hockey game, where they had the chance to walk onto the ice with the players.

Reflecting on her personal journey, she shares, “Sports are part of life. I didn’t play sports growing up, but now I’m playing in leagues for adults. There’s no age limit. Anyone can try it.”

For the GearUp4Kidz team, the value of youth sports is clear. Adam shares, “Sports teach you everything you need as an adult. The teamwork, the respect—it’s all so important.” Hockey, in particular, has shown to be a gateway for children to find a community and passion that can last a lifetime.

As GearUp4Kidz continues to grow and impact the lives of local children, the team’s passion for the sport and commitment to providing opportunities for all kids to play will undoubtedly create lasting change in the Johnstown community and beyond.

Supporters

Once again, our team of supporters went above and beyond in 2024, helping LPF surpass \$5M worth of sports equipment collected for the first time ever in one year! From middle- and high-school students, to local families, to college groups and corporate groups alike, each individual plays a major role in our ability to maintain a constant flow of gear in the warehouse and keep it organized and inventoried for coaches and P.E. teachers to easily navigate. From all of us at LPF, THANK YOU to all our volunteers for helping us achieve our most impactful year yet!

RALPH C. WILSON, JR.
FOUNDATION

RALPH C. WILSON, JR. FOUNDATION: INVESTING IN THE POWER OF SPORTS

After months of due diligence and conversations with stakeholders across the local youth sports community, LPF launched its newest location in Detroit in December of 2024 thanks to the support of the Ralph C. Wilson Foundation. Detroit is home to many incredible youth sports organizations thanks to the foundation and their Project Play Southeast Michigan team. We are thrilled to join this amazing ecosystem of sports based youth development programs and equip programs with the gear they need for their students.

Since its launch in 2023 with support from the Ralph C. Wilson, Jr. Foundation, LPF Western NY is off to a great start, receiving 120+ equipment requests since doors officially opened for distribution in August 2024. LPF has been able to grow its impact to help more kids in Western NY, and soon in Detroit, access all the mental and physical benefits that come with sports participation. We thank the Ralph C. Wilson, Jr. Foundation for their partnership in our work.

UNDER ARMOUR: HELPING GROW THE GAME

As a long-standing supporter of LPF, Under Armour has played a key role in helping us grow our impact. In 2024 alone, Under Armour donated over \$422,000 worth of football equipment and other sports gear to LPF warehouses. This gear allowed LPF to support more football programs in the fall, helping make the sport more accessible for kids in under-resourced communities across our markets. We greatly appreciate Under Armour's dedication of time as volunteers and resources of gear in support of LPF's mission!
